Expertise:

- Frontend Development

- JavaScript and Modern Framework

- CSS Framework and Figma

- API Integration and Asynchronous Operations

Education:

- B.Sci Computer Science, University of Ibadan (Undergraduate)

- Frontend Development Training, Upskill with EduRepublic

- Full Stack Development Training, SQI College of ICT

Profile:

I design and build responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and frameworks like React.js and Vue.js to create seamless user experiences.

Experience:

- EduRepublic - Frontend Developer (Intern) – 2024

During my internship at EduRepublic, I collaborated with senior developers to design, develop, and maintain both the company's website and various client projects.

I gained hands-on experience in frontend technologies, contributed to building responsive and user-friendly interfaces, and improved my skills in JavaScript, HTML, CSS, and modern frameworks.

Additionally, I participated in troubleshooting and debugging efforts, enhancing overall website performance and usability.

- Built Landing Pages for:

- FreelanceAcademy, a brand that teaches freelancing to newbies.

- For several events as a freelancer.

Philips Olorunwa Edun

Frontend Web Developer

Soft Skills:

- Communication
- Collaboration
- Problem Solving
- Adaptability
- Attention to details
- Time Management
- Critical Thinking

Hobbies:

- Coding and exploring new technologies
- Reading fiction novels
- Listening to music (Afrobeats, pop, and soul)
- Enjoying different types of food

Hard Skills:

- HTML/CSS and Responsive Design:

Proficient in creating structured, responsive layouts with HTML5, CSS3 (including Flexbox, Grid), and ensuring mobile-first, adaptive designs across various devices.

- JavaScript (ES6+) & Frameworks:

Strong command of modern JavaScript, including DOM manipulation and event handling, with experience in React.js and Vue.js for component-based development and state management.

- Version Control & Build Tools:

Skilled in using Git for version control and collaborating with teams, as well as leveraging tools like Vite and npm for project bundling and dependency management.

- API Integration & Asynchronous Operations:

Experience in integrating RESTful APIs, handling asynchronous operations, and managing data from external services.

- CSS Frameworks & Figma:

Knowledgeable in using CSS frameworks like Bootstrap or Tailwind for faster UI development and translating design mockups from Figma into functional user interfaces.

- Debugging & Testing:

Familiar with using Chrome DevTools for debugging and writing basic unit tests to ensure frontend code quality.
